Education

Deakin University *Feb 2024 – Nov 2026*
Bachelor of Information Technology Burwood, Victoria

Project Experience

SplashKit Documentation Website — Thoth Tech Capstone *2026*
Git, GitHub, Astro, Docker, JavaScript, C++, C#, Python

- Contributed to the SplashKit documentation website through GitHub pull requests, testing, documentation improvements, and peer reviews.
- Developed multi-language usage examples in C++, C#, and Python for SplashKit graphics functions.
- Resolved reviewer feedback and worked with Astro Starlight, Docker, and automated documentation workflows.
- Progressed to a Team Leader role, supporting task coordination, peer collaboration, and technical discussions.

Secure Web Application and DevSecOps Project *University Project*
C++, HTML, CSS, MySQL, AWS, GitHub

- Developed and tested a secure web application using C++, HTML, CSS, MySQL, and AWS.
- Applied DevSecOps principles, version control, testing, and debugging throughout the development lifecycle.

Healthcare Mobile Application Prototype *University Project*
Figma, User Research, User-Centred Design

- Designed a high-fidelity mobile application prototype to help international students access healthcare information and services.
- Conducted user research and created accessible user flows and interactive screens using Figma.

Responsive Shopping Website *University Project*
HTML, CSS, JavaScript, SQL

- Developed a responsive shopping website with product browsing and user-friendly interface functionality.
- Applied front-end development and database concepts to create an interactive web experience.

Employment Experience

Coles Supermarket *Current*
Service Department Team Member Melbourne, Australia

- Deliver customer service in a high-volume retail environment while handling enquiries, transactions, stock processes, and competing priorities.
- Resolve customer concerns professionally while maintaining accuracy, teamwork, and operational standards.
- Balance employment commitments with full-time university study through effective organisation and time management.

My Equation *Jan 2023 – Oct 2023*
Team Member → Team Leader → Team Manager India

– Promoted twice within ten months based on strong performance, communication, and leadership.
– Led and mentored interns and team leaders while coordinating training, daily operations, and performance targets.
– Delivered presentations on technical education products and supported sales for Robotics and E-Drive workshops.
– Managed reporting, workflow coordination, and communication between operational teams and management.

Leadership Experience

Thoth Tech — SplashKit Website Team *2026 – Current*
Team Leader Deakin University

– Support team collaboration, task coordination, peer reviews, and technical discussions within the SplashKit project.
– Assist junior team members with GitHub workflows, project requirements, and documentation contributions.

Certifications and Training

- **IBM Data Analyst Professional Certificate** — Coursera
- **Complete Data Science, Machine Learning, Deep Learning and NLP Bootcamp** — Udemy
- **Digital Transformation Foundations** — LinkedIn Learning
- **Advanced Programming and Web Development Suite** — Mastek Academy
- **Safety Induction Program** — Deakin University Feb 2024

Volunteer Experience

RSSDI MPCON 2023 *Oct 2023*
Event Operations Assistant Bhopal, India

– Supported attendee registration, spreadsheet-based data management, delegate assistance, and event coordination for a national medical conference.

Achievements

- Promoted from Team Member to Team Leader and Team Manager at My Equation within ten months.
- Progressed to a Team Leader role within the Thoth Tech SplashKit Capstone project.
- Completed collaborative technical projects involving software development, cloud computing, data analysis, DevSecOps, UX design, and version control.
